## THREAT IS MADE ON GARBAGE PLANT

300 Indignant Staten Islanders Make New Protest at City Hall.

Open threat was made at to-day's neeting of the Board of Estimate that if the city builds a garbage disposal plant on Staten Island it will be blown to smithereens with dynamite. This was after the board, ignoming the appeals of more than 300 representative residents of the island. had voted to transfer the site of the proposed plant from one part of Staten Island to another. "If this plant goes up," said F. A.

Verdon, "no one on Staten Island will be responsible for what happens to it. Don't attempt to give us any garbage disposal plant, for it won't go!"

Cheers and hand-clapping followed this threat, and Mayor Mitchel, banging his gavel and showing anger and impatience, declared in loud tones to Lieut. Kennel that he wanted him to clear the room if the demonstration was repeated.

To-day's hearing was the result of an application of Street Cleaning Commissioner Featherston for the changing of the garbage plant site. on the ground that the title to the old plant was not clear. The firm of Gaffney, Gahagen & Van Etten, which is to build the plant, want the site changed from Arthur Kills to the south side of Fresh Kills, known as Simonson's Island, but still in the Borough of Richmond.
